Title:

The Biographic Novel in Modern Iraqi Literature

Abstract:

The brographic novel has its attractive presence of the Syriac presence in modern Arabic literature, especially in Iraq; to enjoy the multiple possibilities which helped novelists to form a vision of the subjective world, they often put theirburdened lives as a tale of their fiction, believing that these lives worth telling and narrated, and the importance of our study comes because of the paucity of studies that deal with the novel In order to "enrich" the Arabic narrative library in general and the Iraqi in particular.We try to cover this pale aspect of its presence in critical studies in our thesis entitled (the Biographic Novel in the Modern Iraqi literature). The thesis came in three chapters, preceded by a preliminary chapter followed by a conclusion.
